Phonics for Pupils with Special Educational Needs Book 4: Sound by Sound Part 2 Ann Sullivan 2018-11-09 Phonics for Pupils with Special Educational Needs is a complete, structured, multisensory programme for teaching reading and spelling, making it fun and accessible for all. This fantastic seven-part resource

offers a refreshingly simple approach to the teaching of phonics, alongside activities to develop auditory and visual perceptual skills.

Specifically designed to meet the needs of pupils of any age with special educational needs, the books break down phonics into manageable core elements and provide a huge wealth of resources to support teachers in teaching reading and spelling. Book 4: Sound by Sound Part 2 focuses on investigating complex sounds and their relationship with letters and letter combinations. Each chapter explores a key sound (o-e/ z/ ee/ a-e/ er/ e/ ow) and contains over 40 engaging activities, including: sound sums, word tech, word tracker, making better sentences and spelling challenge. Thorough guidance is provided on how to deliver each activity, as well as a lesson planner template, a handy list of high frequency words and posters for teachers and teaching assistants to use to support learning. Each book in the series gradually builds on children's understanding of sounds and letters and provides scaffolded support for children to learn about every sound in the English language. Offering tried and tested material which can be photocopied for each use, this is an invaluable resource to simplify phonics teaching for teachers and teaching assistants and provide fun new ways of learning phonics for all children. This book is accompanied by a companion resource, 'Phonics for Pupils with Complex SEND', to be used alongside the Phonics for Pupils with Special Educational Needs programme. The activities from Books 1-6 of the programme are adapted to be accessible for non-verbal pupils, including AAC users, and those with physical disabilities.

Teaching Spelling to English Language Learners Johanna Stirling 2011-04 A

book for anyone teaching English spelling, particularly those working with English language learners. This essential manual answers three challenging questions about teaching spelling: Why is there a problem with teaching and learning spelling? What can be done about it? How can this be accomplished? The first part of the book helps teachers understand the systems of English spelling and the regularities, which are not necessarily phonological. It explores the errors that learners really make and the challenges faced by teachers. The second part outlines a fresh, new, multi-dimensional approach to teaching spelling which recognises the need for learner engagement and strategy training as well as work on the patterns found in English orthography. The final part of the book presents over seventy engaging and effective activities which are designed to develop a range of strategies and knowledge about English spelling.

Mythology of the Lenape John Bierhorst 1995-10 The Lenape, or Delaware, are an Eastern Algonquian people who originally lived in what is now the greater New York and Philadelphia metropolitan region and have since been dispersed across North America. While the Lenape have long attracted the attention of historians, ethnographers, and linguists, their oral literature has remained unexamined, and Lenape stories have been scattered and largely unpublished. This catalog of Lenape mythology, featuring synopses of all known Lenape tales, was assembled by folklorist John Bierhorst from historical sources and from material collected by linguists and ethnographers. A difficult task in light of both the paucity of research done on Lenape mythology and the fragmentation of traditional Lenape culture over the past three centuries. Bierhorst here offers an unprecedented guide to the Lenape corpus with supporting texts. Part one of the "Guide" presents a thematic summary of the folkloric tale types and motifs found throughout the texts; part two presents a synopsis of each of the 218 Lenape narratives on record; part three lists stories of uncertain origin; and part four compares types and motifs occurring in Lenape myths with those found in myths of neighboring Algonquian and Iroquoian cultures. In the "Texts" section of the book, Bierhorst presents previously unpublished stories collected in the early twentieth

century by ethnographers M. R. Harrington and Truman Michelson. Included are two versions of the Lenape trickster cycle, narratives accounting for dance origins, Lenape views of Europeans, and tales of such traditional figures as Mother Corn and the little man of the woods called Wemategunis. By gathering every available example of Lenape mythology, Bierhorst has produced a work that will long stand as a definitive reference. Perhaps more important, it restores to the land in which the Lenape once thrived a long-missing piece of its Native literary heritage.
