Modernism, Mass Culture and Professionalism Thomas Strychacz 1993-07-30 A study of four modernist writers and their relationship to their critics and era. Flannery O'Connor, Walker Percy, and the Aesthetic of Revelation John Sykes 2007-01-01 "Examining the writings of Flannery O'Connor and Walker Percy against the

background of the Southern Renaissance from which they emerged, Sykes explores how the writers shared a distinctly Christian notion of art that led them to see fiction as revelatory but adopted different theological emphases and rhetorical strategies"--Provided by publisher.

The Power of Negative Thinking Benjamin Schreier
2009-04-20 Benjamin Schreier is suspicious of a simple equation of cynicism with quietism, nihilism, selfishness, or false consciousness, and he rejects the notion that modern cynicism represents something categorically different from the classical outlook of Diogenes. He proposes, instead, that cynicism names the difficult position of not being able to recognize the relevance of democratic social norms in the future and yet being nonetheless invested in the power of these norms to determine cultural identity and to regulate social practices. In his readings of Henry Adams's *Education*, Willa Cather's *The Professor's House*, F. Scott Fitzgerald's *The Great Gatsby*, and Nathanael West's *Miss Lonelyhearts*, the author affirms that cynicism is an important and under-appreciated current in mainstream modern American literature. He finds that, far from the simple selfishness or apathy for which it is so often dismissed, the cynicism in these texts is suffused by a desire for the certainty promised by norms such as national teleology, ethnic identity, and civic participation. But without faith in the relevance of these regulating terms, cynics lack ready accounts of America and of their place in it. Schreier's focus is not only on the cynical characters in the texts but also on the textual and epistemological strategies used to render normative narratives recognizably legitimate in the first place. In his refusal to historicize cynicism

away with generalized claims about American society, Schreier argues instead that cynicism stages an unanswerable challenge to the specific expectations through which normative accounts of history become visible. *The Power of Negative Thinking* makes a vital and wide-ranging contribution to our understanding of American literature, intellectual and cultural history, philosophy, ethics, and politics. Schreier's close reading and his vigorous theoretical examination of analytical first principles combine to make a book that is valuable not only to the study of methodology but also to the scrutiny of the very assumptions the humanities bring to the exploration of the way we think.

Freaks in Late Modernist American Culture Nancy Bombaci
2006 *Freaks in Late Modernist American Culture* explores the emergence of what Nancy Bombaci terms «late modernist freakish aesthetics» - a creative fusion of «high» and «low» themes and forms in relation to distorted bodies. Literary and cinematic texts about «freaks» by Nathanael West, Djuna Barnes, Tod Browning, and Carson McCullers subvert and reinvent modern progress narratives in order to challenge high modernist literary and social ideologies. These works are marked by an acceptance of the disteleology, anarchy, and degeneration that racist discourses of the late nineteenth and early twentieth centuries associated with racial and ethnic outsiders, particularly Jews. In a period of American culture beset with increasing pressures for social and political conformity and with the threat of fascism from Europe, these late modernist narratives about «freaks» defy oppressive norms and values as they search for an anarchic and transformational creativity.

Hitchcock's Rear Window John Fawell 2004-11-22 In the process of providing the most extensive analysis of Alfred Hitchcock's *Rear Window* to date, John Fawell also dismantles many myths and clichés about Hitchcock, particularly in regard to his attitude toward women. Although *Rear Window* masquerades quite successfully as a piece of light entertainment, Fawell demonstrates just how complex the film really is. It is a film in which Hitchcock, the consummate virtuoso, was in full command of his technique. One of Hitchcock's favorite films, *Rear Window* offered the ideal venue for the great director to fully use the tricks and ideas he acquired over his previous three decades of filmmaking. Yet technique alone did not make this classic film great; one of Hitchcock's most personal films, *Rear Window* is characterized by great depth of feeling. It offers glimpses of a sensibility at odds with the image Hitchcock created for himself—that of the grand ghoul of cinema who mocks his audience with a slick and sadistic style. Though Hitchcock is often labeled a misanthrope and misogynist, Fawell finds evidence in *Rear Window* of a sympathy for the loneliness that leads to voyeurism and crime, as well as an empathy for the film's women. Fawell emphasizes a more feeling, humane spirit than either Hitchcock's critics have granted him or Hitchcock himself admitted to, and does so in a manner of interest to film scholars and general readers alike.

Miss Lonelyhearts Nathanael West 2012-11-29 Eine schwarze Komödie im New York der 20er-Jahre Scheinheiligkeit, Scheinmoral, Scheinentrüstung – das ging im Medienzirkus schon immer zusammen und tut es bis heute. Nathanael West zeigt in seiner flammenden Satire, wie dreist im modernen Pressewesen getäuscht und

geheuchelt wird. Mit seiner »Miss Lonelyhearts« präsentiert er eine wunderbar ambivalente Schlüsselfigur des großen Bluffs. »Haben Sie Sorgen? Schreiben Sie an Miss Lonelyhearts!« – Die Leserschaft des New Yorker Post-Dispatch macht regen Gebrauch von der Offerte, und die Briefe in der Redaktion stapeln sich höher und höher. Ob es um Pubertätsnöte geht, um Inzest oder gebrochene Herzen – Miss Lonelyhearts hat garantiert die passenden Worte auf Lager. Dass die beliebte Trostspenderin in Wahrheit eine durch und durch trostlose Existenz ist, wissen nur die feixenden Kollegen. Schonungslos deckt der Roman den faulen Zauber eines Systems auf, das auf billigsten Illusionismus setzt und Menschen vorsätzlich für dumm verkauft. »'Miss Lonelyhearts' ist aus dem Stoff, aus dem unsere Zeitungen sind – bloß dass West die Wahrheit erzählt.« (Dashiell Hammett)

Framing the Margins Phillip Brian Harper 1994-01-06 This dramatic rereading of postmodernism seeks to broaden current theoretical conceptions of the movement as both a social-philosophical condition and a literary and cultural phenomenon. Phil Harper contends that the fragmentation considered to be characteristic of the postmodern age can in fact be traced to the status of marginalized groups in the United States since long before the contemporary era. This status is reflected in the work of American writers from the thirties through the fifties whom Harper addresses in this study, including Nathanael West, Anaïs Nin, Djuna Barnes, Ralph Ellison, and Gwendolyn Brooks. Treating groups that are disadvantaged or disempowered whether by circumstance of gender, race, or sexual orientation, the writers profiled here occupy the cusp between the modern and the

postmodern; between the recognizably modernist aesthetic of alienation and the fragmented, disordered sensibility of postmodernism. Proceeding through close readings of these literary texts in relation to various mass-cultural productions, Harper examines the social placement of the texts in the scope of literary history while analyzing more minutely the interior effects of marginalization implied by the fictional characters enacting these narratives. In particular, he demonstrates how these works represent the experience of social marginality as highly fractured and fracturing, and indicates how such experience is implicated in the phenomenon of postmodernist fragmentation. Harper thus accomplishes the vital task of recentring cultural focus on issues and groups that are decentered by very definition, and thereby specifies the sociopolitical significance of postmodernism in a way that has not yet been done.

The Grotesque Harold Bloom 2009 Explores the literary theme of the grotesque in twenty essays exploring works of authors as varied as Aristophanes, Nikolai Gogol, Edgar Allan Poe, and Flannery O'Connor.

The Great Depression and the Culture of Abundance Rita Barnard 1995-01-27 Examines the response of American leftist writers from the 1930s to the rise of mass culture, and to the continued propagation of the values of consumerism during the Depression. It traces in the work of Kenneth Fearing and Nathaniel West certain theoretical positions associated with the Frankfurt school (especially Walter Benjamin) and with contemporary theorists of postmodernism.

Corridor Kate Marshall 2013-06-01 Corridor offers a series of conceptually provocative readings that illuminate a hidden and surprising relationship between

architectural space and modern American fiction. By paying close attention to fictional descriptions of some of modernity's least remarkable structures, such as plumbing, ductwork, and airshafts, Kate Marshall discovers a rich network of connections between corridors and novels, one that also sheds new light on the nature of modern media. The corridor is the dominant organizational structure in modern architecture, yet its various functions are taken for granted, and it tends to disappear from view. But, as Marshall shows, even the most banal structures become strangely visible in the noisy communication systems of American fiction. By examining the link between modernist novels and corridors, Marshall demonstrates the ways architectural elements act as media. In a fresh look at the late naturalist fiction of the 1920s, '30s, and '40s, she leads the reader through the fetus-clogged sewers of *Manhattan Transfer* to the corpse-choked furnaces of *Native Son* and reveals how these invisible spaces have a fascinating history in organizing the structure of modern persons. Portraying media as not only objects but processes, Marshall develops a new idiom for Americanist literary criticism, one that explains how media studies can inform our understanding of modernist literature.

The Ironic Temper and the Comic Imagination Morton Gurewitch 1994 The Ironic Temper and the Comic Imagination examines and illuminates the role which the ironic temper plays in the creation of complex literary comedy. The book focuses on ironic comedy, though not of the kind that is characterized by the surprises and shocks, the incongruities and reversals, of circumstantial irony. Circumstantial–or situational–irony cannot stand alone; it serves, for example, the aggressive functions of satire, or the irrational impulses of farce, or the benevolent, whimsical, or pain-defeating energies of humor.

Schreiben Sie Miss Lonelyhearts Nathanael West 1963 The Dark Landscape of Modern Fiction Patrick Reilly 2018-05-08 This title was first published in 2003. This text explores the "dark, pessimistic truth that pervades the pages of modern texts", setting a theme of Dante's "Inferno" against the work of modern authors including Dostoyevsky, Hardy, Conrad, Wharton, Kafka, Camus, Waugh and Flannery O'Connor. The author's thesis is that these writers exhibit a hostility towards the reader, an anger that the reader should continue to be so deludedly happy when the writer has become so mortifyingly enlightened. At its most characteristic, Reilly demonstrates, modern fiction seems to achieve a savage satisfaction in inflicting this pain, to an extent that could be described as sadistic. Reilly traces what he calls this "punitive spirit" to a character in the "Inferno", Vanni Fucci, who suffering himself does his best to make Dante suffer too. Through the study he uses the "Inferno" as a guide to the prevailing attitudes in modern fiction,

revealing a parallel between the prohibition of pity within the medieval poem and in the pages of modern texts.

Seven Contemporary Authors Thomas B. Whitbread

2014-09-10 These seven critical essays, each on a twentieth-century novelist, are disparate in content, but all are concerned with the problem of evil and inhumanity and with the paradoxes of human existence. Each essay discusses a different author, but this independence of subject is resolved into a central theme through the interpretive approach followed by the seven critics. Each of the contributors presents his subject against the background of the current disillusionment and frustration of our age. Underlying each essay are undertones of the "absurdity" of life today for those who consider it thoughtfully, and the contrast between what men would like reality to be and what they actually find. This unity of theme—the problem of evil, of inhumanity, of meaninglessness, the concern for the human being and his future—is developed in an interesting manner. It was exploited in different ways by the seven modern novelists discussed in the essays, and it is presented with different analytical techniques by the seven critics. Yet the reader senses the unity of feeling and purpose amid the diversity of fictional content and critical evaluation. Besides the interpretive Introduction by Thomas B. Whitbread, the book contains the following essays: R. W. Lewis, "The Conflicts of Reality: Cozzens' *The Last Adam*" Alan Friedman, "The Pitching of Love's Mansion in the Tropics of Henry Miller" Roger D. Abrahams, "Androgynes Bound: Nathanael West's *Miss Lonelyhearts*" George Clark, "An Illiberal Education: William Golding's *Pedagogy*" Vance Ramsey, "From Here to Absurdity: Heller's *Catch-22*"

Anthony Channell Hilfer, "George and Martha: Sad, Sad, Sad" Robert G. Twombly, "Hubris, Health, and Holiness: The Despair of J. F. Powers"

Muse in the Machine Mark Conroy 2004 "A writer who simply panders to the public is seldom taken for an artist. An artist who cannot publish is seldom granted a career. This dilemma, the subject of *Muse in the Machine*, has been home to many authors of serious fiction since the eighteenth century. But it is especially pointed for American writers, since the United States never fostered a sustainable elite culture readership. Its writers have always been reliant on mass publicity's machinery to survive; and when they depict that machinery, they also depict that reliance and the desire to transcend its banal formulas. This book looks at artist tales from Henry James to don DeLillo's *Mao II*, but also engages more indirect expressions of this tension between Romantic individualism and commercial requirements in Nathanael West, Vladimir Nabokov, and Thomas Pynchon. It covers the twentieth century, but its focus is not another rehearsal of "media theory" or word versus image. Rather, it aims to show how various novels "about" publicity culture also enact their authors' own dramas: how they both need and try to critique the "machine". In subject as well as approach, this study questions the current impasse between those who say that the aesthetic aspires to its own pure realm, and those who insist that it partakes of everyday practicality. Both sides are right; this book examines the consequences of that reality."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

Fundamentals of Story Logic Therese Budniakiewicz
1992-01-01 Drawing largely on Propp's and Greimas' work

on the narrative, this book is aimed at consolidating and extending their views through a series of concrete applications. The volume offers a critical examination of narrative structure in terms of its two basic syntactic units or sets of operations, namely the □eventual or dynamic configurations corresponding to communication or to contract or, more general, to the structure of exchange.□ Because of the emphasis it lays on the logical frame underlying the syntagmatic dimension of the story, the book contributes to an integrated descriptive model deliberately centered on □narrative semiotics as a branch of descriptive poetics.□ The discussion of value in its social and legal context brings to light the links between the theory of narrative and its anthropological sources. This book shows that a strict concern with story logic requires a reevaluation of the basic premises of semiotic theory and raises important epistemological questions about its evolution.

Flannery O'Connor Sarah Gordon 2000 Disturbing, ironic,

haunting, brutal. What inner struggles led Flannery O'Connor to create fiction that elicits such labels? Much of the tension that drives O'Connor's writing, says Sarah Gordon, stems from the natural resistance of her imagination to the obedience expected by her male-centered church, society, and literary background. *Flannery O'Connor: The Obedient Imagination* shows us a writer whose world was steeped in male presumption regarding women and creativity. The book is filled with fresh perspectives on O'Connor's Catholicism; her upbringing as a dutiful, upper-class southern daughter; her readings of Thurber, Poe, Eliot, and other arguably misogynistic authors; and her schooling in the New Criticism. As Gordon leads us through a world premised on expectations at odds with O'Connor's strong and original imagination, she ranges across all of O'Connor's fiction and many of her letters and essays. While acknowledging O'Connor's singular situation, Gordon also gleans insights from the lives and works of other southern writers, Eudora Welty, Caroline Gordon, and Margaret Mitchell among them. *Flannery O'Connor: The Obedient Imagination* draws on Sarah Gordon's thirty years of reading, teaching, and discussing one of our most complex and influential authors. It takes us closer than we have ever been to the creative struggles behind such literary masterpieces as *Wise Blood* and "A Good Man Is Hard to Find."

Die Visualisierung von Suspense in Hitchcocks Filmen Inka Milke 2000-01-31 Diese Arbeit setzt sich zum Ziel, die Elemente Hitchcocks Stils herauszuarbeiten und ihre Wirkung auf den Zuschauer zu beschreiben. Als Einstieg wird auf die Rezeption Hitchcocks eingegangen, wobei auch sein Status als auteur erklärt wird. Im Anschluß daran folgt eine Einführung in Hitchcocks Stil des filmischen Erzählens im Allgemeinen mit einer detaillierten Definition der für seine Filme so wichtigen Suspense. In dem Hauptteil der Arbeit folgen dann die Analysen der drei ausgewählten Filme unter dem Aspekt der Visualisierung der Suspense. Aufgrund der Vielschichtigkeit seiner Filme muß die Untersuchung auf

einen Aspekt beschränkt werden und befaßt sich daher entsprechend dessen, wofür Hitchcock allgemein am bekanntesten ist, mit seiner Visualisierung von Suspense. Da auch in bezug auf die Suspense die verschiedenen Bedeutungsebenen der Filme einander beeinflussen, wäre ein Eingehen nur auf die offensichtlichen Suspense-Szenen ungenügend. Bei allen drei Analysen muß daher immer wieder die unmittelbar bildliche Ebene verlassen und auf den Kontext eingegangen werden. Die Begründung für die Auswahl der Filme sowie die genauere Vorgehensweise im jeweiligen Einzelfall wird in Kapitel III, der Analyse der drei Filme, vorgestellt. In der Schlussbemerkung werden die Ergebnisse der Analysen zusammengetragen und in Zusammenhang gebracht, so daß anhand der drei untersuchten Filme ein Verständnis für Hitchcocks filmischen Erzählstil und seine untrennbar damit verbundene visuelle Erzeugung von Suspense erreicht wird.
