Combined Analyses of Cancer Mortality Among Nuclear Industry Workers in Canada, the United Kingdom and the United States of America E. Cardis 1995 Reports the results of an analysis of combined mortality data on 95,673 nuclear industry workers at seven facilities in the USA, UK and Canada. Workers at these facilities, which include both atomic energy stations and nuclear weapons plants, have been monitored in previous studies to determine the health effects of external exposure to ionizing radiation. By combining and assessing data from previous studies, the present analysis aimed to develop more precise estimates of the risk of radiation-induced cancer and thus to strengthen the scientific basis for setting radiation protection standards. The study also compared risk estimates among workers with estimates obtained in high-dose studies, including investigations of atomic bomb survivors and of patients irradiated for therapeutic purposes. The

results represent the most comprehensive and precise direct assessment to date of the carcinogenic risk of protracted external exposure to generally low doses of ionizing radiation. The combined analysis of data on nuclear industry workers found a significant increase in the risk of leukemia, and of myeloid leukemia in particular, at relatively low dose levels. The study also provided an opportunity to examine some of the previously reported associations between low doses of ionizing radiation and mortality from specific cancer types. Of the 36 cancer types or groupings considered, most showed little or no association with radiation exposure. Apart from leukemia, multiple myeloma was the only cancer to exhibit a statistically significant association with radiation dose.

Social Identity Kelly M. Hannum 2012-04-01 The context of leadership has changed. Traditionally, leaders worked in organizations in which people largely shared a common culture and set of values. Today, leaders must bring together groups of people with very different histories, perspectives, values, and cultures. The people you lead are likely to be different from you and from each other in significant ways. Leaders today need an awareness of social identity, their own and that of others. *Das Fest des Ziegenbocks* Mario Vargas Llosa 2012-10-13 Als Urania Cabral nach langen New Yorker Exiljahren nach Santo Domingo zurückkehrt, auf die Insel, die sie nie wieder betreten wollte, findet sie ihren Vater stumm und im Rollstuhl vor. Der einstige Senatspräsident und Günstling des Diktators blickt sie auf ihre schweren Vorwürfe nur starr an, und Urania bleibt allein mit ihren Erinnerungen an die Zeit der Willkür - und an ein ungeheuerliches Geschehen. Mit ihr kehren wir zurück ins Jahr 1961, als die dominikanische Hauptstadt noch Ciudad Trujillo heißt. Dort herrscht ein Mann, der nie schwitzt, mit absoluter Macht über drei Millionen Untertanen, nackte Gewalt ausübend, wo sie ihm nutzt, Charme und intellektuelle Überlegenheit ausspielend, wo er die Gebildeten und die Oberschicht ins Kalkül zieht. Uranias Vater ist

da nur eine Schachfigur im perfiden Spiel des Diktators. Während der »Große Wohltäter«, der fast das ganze Land in seinen persönlichen Besitz gebracht hat, Militär, Kirche, amerikanische Botschaft im Schach zu halten vermeint, sind seine Attentäter längst unterwegs - ohne ihrerseits zu ahnen, daß in ihrem Rücken ein machiavellistischer Machtwechsel im Gange ist. Im eisigen Zentrum von Vargas Llosas Roman steht die nur allzu reale Gestalt des General Leónidas Trujillo, genannt »Der Ziegenbock«. Doch der Blick des Schriftstellers dringt unter die historische Haut, macht uns zu Zeitgenossen, zu Mitwissern. Den Verschwörern mit ihrer brennenden Begierde, ihren Demütiger zu beseitigen, den intelligenten Politschranzen und den Opfern gibt der Erzähler seine eindringliche Stimme. Und er schürzt den dramatischen Knoten so gekonnt, daß diese Psychographie der Macht und ihrer Verheerungen wie ein Thriller zu lesen ist.

With a focus on how accounting information can be used to improve the quality of decision making by managers.
