**Partnership in Space** Ben Evans 2013-10-04 April 12, 2011 was the 50th Anniversary of Yuri Gagarin's pioneering journey into space. To commemorate this momentous achievement, Springer-Praxis has produced a mini-series of books that reveals how humanity's knowledge of

flying, working, and living in space has grown in the last half century. "Partners in Space" focuses on the early to late 1990s, a time in the post-Soviet era when relations between East and West steadily - though not without difficulty - thawed and the foundations of real harmony and genuine co-operation were laid for the first time with Shuttle-Mir and the International Space Station. This book explores the events which preceded that new era, including the political demise of Space Station Freedom and the consequences of the fall of the Soviet Union on a once-proud human space program. It traces the history of "the Partnership" through the often traumatic times of Shuttle-Mir and closes on the eve of the launch of Zarya, the first component of today's International Space Station.

No Arm Around My Shoulder Walter Fred Hamelrath 2009-03 Book review by Beverly Seaton Ingersoll Author: 4 Months of God's Mercy "No Arm Around My Shoulder" is a story of life long ago when survival was an everyday occurrence. A small child's only desire to be wanted and loved by his family, but in return must endure hostility and scorn for the first 18 years of his life. This story cannot help but touch the soul of everyone who reads it. I was heart-stricken by

the pain and adversity this author endured as a child, but also inspired, because I know he is a warm, caring, honorable man today. The history Fred describes in Southern Idaho as he and his family moved from place to place just to put food on the table reminded me of times when life was much harder than today. I felt as though I was right there with him. The author is an inspiration to all of how strong a person's character is and that they can successfully overcome extremely difficult obstacles.

*Dad, God, and Me* Ralph Friesen 2019-12-10 In a compelling, honest, and transparent account, Ralph Friesen tells the story of his father, Reverend Peter D. Friesen of Steinbach, Manitoba. He also tells his own story, of the search for his father and a crisis of faith. Growing up in a fundamentalist Mennonite community as the son of a minister, Ralph resisted the pressure to be "saved" and struggled to find a spiritual alternative. His father suffered a debilitating stroke when Ralph was a young teenager, but it is only now, in his seventies, that Ralph has delved into the meaning of that event. *Dad, God, and Me* is Ralph's quest to discover and convey

the man his father was—with all of his strengths, faults, aspirations, and regrets. Drawing on journal entries, old photographs, and personal memories, this memoir welcomes readers into a particular time, place, and family. An engaging read for anyone who appreciates that “real life” can be challenging, painful, and beautiful all at the same time.

*What Chinese Want* Tom Doctoroff  
2012-05-22 Today, most Americans take for granted that China will be the next global superpower. But despite the nation's growing influence, the average Chinese person is still a mystery - or, at best, a baffling set of seeming contradictions - to Westerners who expect the rising Chinese consumer to resemble themselves. Here, Tom Doctoroff, the guiding force of advertising giant J. Walter Thompson's (JWT) China operations, marshals his 20 years of

experience navigating this fascinating intersection of commerce and culture to explain the mysteries of China. He explores the many cultural, political, and economic forces shaping the twenty-first-century Chinese and their implications for businesspeople, marketers, and entrepreneurs - or anyone else who wants to know what makes the Chinese tick. Dismantling common misconceptions, Doctoroff provides the context Westerners need to understand the distinctive worldview that drives Chinese businesses and consumers, including:  
- why family and social stability take precedence over individual self-expression and the consequences for education, innovation, and growth; - their fundamentally different understanding of morality, and why Chinese tolerate human rights abuses, rampant piracy, and endemic government corruption; and - the long and storied past that still drives

decision making at corporate, local, and national levels. Change is coming fast and furious in China, challenging not only how the Western world sees the Chinese but how they see themselves. From the new generation's embrace of Christmas to the middle-class fixation with luxury brands; from the exploding senior demographic to what the Internet means for the government's hold on power, Doctoroff pulls back the curtain to reveal a complex and nuanced picture of a fascinating people whose lives are becoming ever more entwined with our own.
